

Tiles
Authentic looking tiles

Starter strip
The starter strip provides a real slate look and excellent ventilation

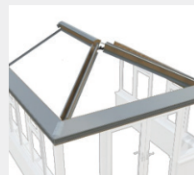

Expandable panel
The expandable Ultrapanel expands to fill any gaps in the roof to prevent cold spots

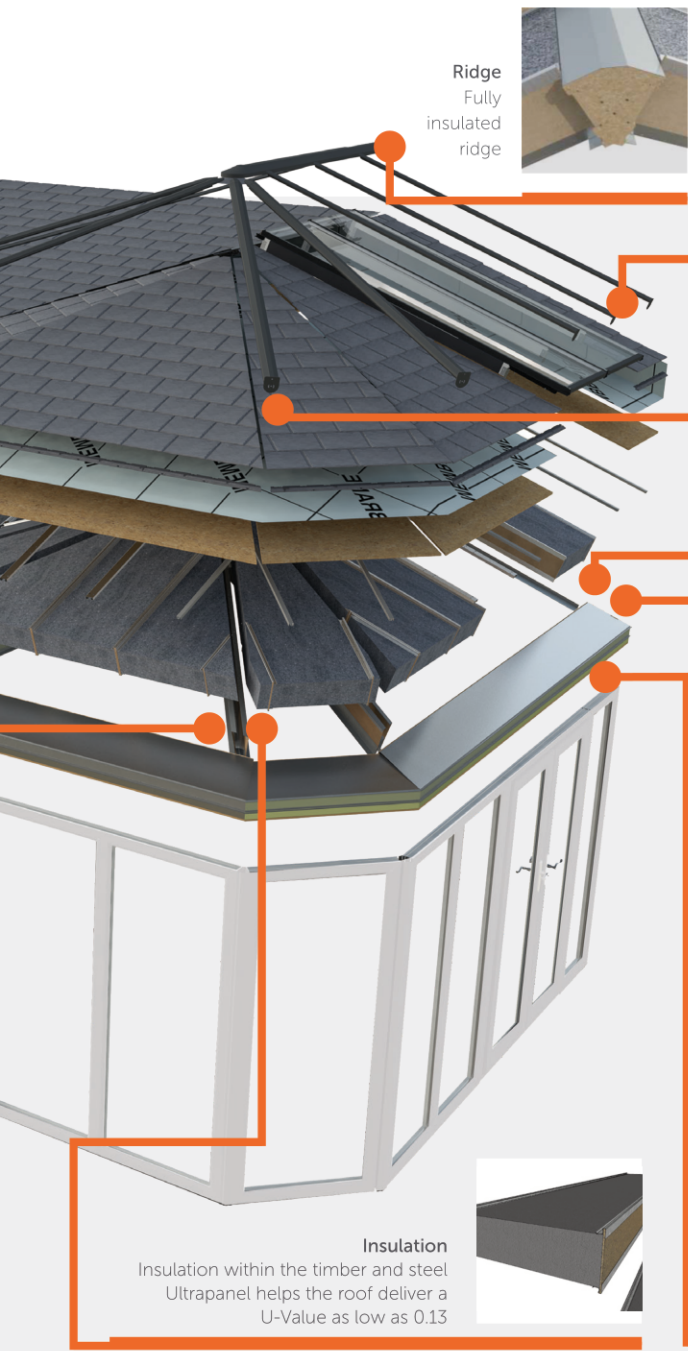

No tie bar
Ultrarroof creates a beautiful vaulted ceiling and never needs a tie bar - ever

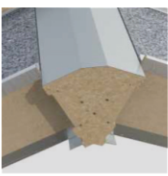

Bi-fold doors
Ultrarroof's beam is strong enough to allow for bi-fold or sliding doors up to 4m wide without any extra support

Framework
Each Ultrarroof is structurally designed to withstand the worst possible weather conditions of the specific installation postcode

Ridge
Fully insulated ridge

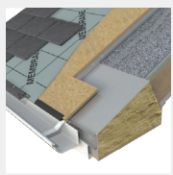

Glazing
Full length glazing

Hips
Slimline aluminium hip and ridge cappings

Box beam
Fully insulated box beam removes any risk of condensation

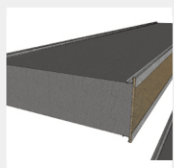

Pelmet
Internal pelmet for downlights and speakers

Soffit
External soffit (A variety of widths available)

Insulation
Insulation within the timber and steel Ultrapanel helps the roof deliver a U-Value as low as 0.13

Beautiful Lightweight Tiled Roof

After

As safe as houses

When upgrading your conservatory roof, it's vital that you choose a replacement roof that's safe for your complete peace of mind.

Every Ultrarroof is designed to withstand the worst weather at the installation postcode, meaning that your new living space will be as safe as houses.

So not only will your new conservatory look beautiful, you'll know that it's built to last.

Before

Upgrade your conservatory roof

With the Ultrarroof system from Wendland, you can quickly and easily replace your old conservatory roof to create a room that is beautiful and warm.

As Ultrarroof is extremely lightweight its the ideal choice for upgrading your conservatory. Not only does it look like an extension from inside and outside, it is also fast to install meaning your roof can be changed and watertight in a day.

A warm, cosy space throughout the seasons

Engineered to postcode

The lightest tiled roof on the market – only 38 kg/m²

Highly insulated - U-Value as low as 0.13

High quality

Your home extension, your way

Ultrarroof is also the perfect choice for new home extensions – it's warm, fast to fit and looks amazing.

Ultrarroof is the modern way to build an extension on your home. It can be used to create a roof in any shape or size and it never needs a tie bar – so the inside of your extension will always have a vaulted ceiling that is open, without any bars or beams.

Full length glass panels fill your new room with natural light, or if you prefer, Velux style windows can be added.

Super strong

If you want bi-fold doors, Ultrarroof is so strong that the doors can be up to 4m wide before any costly structural support is needed, saving you money.
